#### Darwin Dangerous Idea Answers - Run Digital

Darwin's Dangerous Idea: Evolution and the Meanings of Life is a 1995 book by the philosopher Daniel Dennett, in which the author looks at some of the repercussions of Darwinian theory. The crux of the argument is that, whether or not Darwin's theories are overturned, there is no going back from the dangerous idea that design (purpose or what something is for) might not need a designer.

#### Darwin's Dangerous Idea - Wikipedia

Darwin read in Thomas Malthus' book that the human population can double every 25 years but doesn't because the struggle for survival keeps the numbers down. What did Darwin conclude from reading this?
