The Alexanders Series by Minx Malone - Goodreads

This book will end up costing money because it includes the first half of the next book and YOU WILL WANT TO BUY IT . The short story Teasing Trent is a nice little taster for some of the characters and the way the author writes. I liked it. M. Malone writes well rounded characters, who are believable and appealing.

Having read 'Teasing Trent (The Alexanders)' I didn't bother to read any of these bonus items. It was a very short silly story about how a couple got together. The dialogue was juvenile, the story and characters had no depth. Sorry M Malone but if this is meant to advertise your writing them it has had the opposite effect for me.

Teasing Trent I loved this book. It was so sexy and fun. I just wish it was a little longer so we can get into the characters more. This love story deserves its own longer version but I'll take what I can get. Bought the second book and its pretty good so far.

Downloaded this after reading the preview novella, Teasing Trent. Thoroughly enjoyed being totally immersed in a contemporary romance for a change! This author has a real knack for writing emotional, well-rounded characters that find themselves in the ultimate dream world of true love, and all that physically involves!
